## VINEYARD SOURCES

*Mauritson Family Vineyards - Lake County AVA - 42%*

*Shannon Ridge Vineyards - Lake County AVA - 58%*

## 2021 VINTAGE REPORT

Annual rainfall was down by over 60% in 2021. The early months of spring brought mild weather; however, May, June, and July were all hot with temperatures between 90 and 105 degrees.

Harvest yields were significantly down due to warmer temperatures, but the Sauvignon Blanc fruit harvested was rich and concentrated in flavor. Due to the warmer weather, harvest occurred in mid-August which, compared to previous years, is relatively early. Fruit yield in Lake County was significantly down; however, the fruit quality proved to make great Sauvignon Blanc!
